

POLYTAN SMARTRACKS

INTELLIGENT TRACK FOR ATHLETES AND TRAINERS
WHO WANT TO KNOW MORE

For professional athletes and ambitious runners, keeping a detailed log of your training session and performance is crucial. Polytan SmarTracks is the ideal solution. Working in conjunction with Humotion, Polytan has developed a sophisticated solution for documenting training performance.

BENEFITS

- Intuitive design – not set-up or dismantling required
- Professional training log – efficient training plans
- No limit to the number of athletes who can train at the same time
- Protection against vandalism
- Weather-resistant

POLYTAN SMARTRACKS

INTELLIGENT TRACK FOR ATHLETES AND TRAINERS WHO WANT TO KNOW MORE

Polytan SmarTracks systems provide effortless and precise data logging thanks to their built-in time recording systems. The measurement data is recorded automatically by a special sensor or smartphone carried by the runner for every lap of the track they make. Data, such as running time, distance, step frequency and step quantity, is documented in a professional training log. Pre-drafted training plans make it easy to compare and analyse your training performance. Polytan SmarTracks provide athletes and trainers with the perfect solution for increasing effectiveness and efficiency during training and prevent strain and injury from too much training.

Humotion SmarTracks timing gates are available for Polytan SmarTracks synthetic surfaces. Humotion provide the measuring system and server solutions.

Professional training log

- Running and interval times
- Distance
- Step frequency
- Step number

Intelligent training

- Analysing training level
- Identifying performance reserves
- Improving performance
- Preventing injuries

Innovative technology

- Fabric-based measurement sensors
- High-quality magnetic gates
- Time measurement system built into the track
